

YOON ZAR PYI KYAW

Software Support Engineer | Database Operations

yoonzarpyikyaw@gmail.com | 09401985981 | No.1423, Ward 19, Maung Makan Kanthar St., Dagon Myothit(South)

PROFILE SUMMARY

Experienced Software Support Engineer with a strong background in Core Banking Systems (Finacle), specialized in production support, high-level SQL querying, and database operations. Proven track record in Linux server administration, system optimization, and managing critical End-of-Day (EOD) processes. Looking to leverage technical expertise into a focused Database Administrator (DBA) or Data Operations role.

EDUCATION

Toungup University

2018 - 2023

- Bachelor of Arts (BA) in Geography

TECHNICAL TRAINING

BNN TECH Training

- GNU/Linux System Administration

KIT Computer Training Centre

- Network Engineering (Basic to Advance)

WORK EXPERIENCE

Software Support Engineer | Asia Green Development Bank (AGD)

2025 - PRESENT

- Incident Management:** Provide technical support to bank branches, resolving application-level issues and ensuring minimal disruption to daily banking operations under strict SLAs.
- Data Operations & EOD:** Execute daily End-of-Day (EOD) and financial closing processes securely, maintaining high data integrity across production systems.
- Database Querying:** Write and execute SQL queries to perform data verification, troubleshoot system discrepancies, and generate ad-hoc operational reports.
- Partnered with coworkers to accelerate transfer processing and minimize mistakes.

Lower Division Clerk | Global Treasure Bank (GTB)

2023-2025

- Infrastructure Optimization:** Configured Linux kernel parameters and system services to optimize Infosys Finacle Core Banking performance.
- Technical Troubleshooting:** Managed Level 2/Level 3 technical issue resolution, tracking Finacle logs on Linux environments for deep troubleshooting.
- End-User Training:** Designed and delivered technical training programs for bank personnel to enhance internal software competence.

Office Assistant | Global Treasure Bank (GTB)

2018-2023

- Logged detailed transaction records systematically for regulatory compliance.
- Partnered with coworkers to accelerate transfer processing and minimize mistakes.

PROFESSIONAL SKILL

- Functional Issue Resolution, User Training**
- Databases & Data Operations:** SQL, PostgreSQL, MySQL, Oracle, Data Normalization, Query Optimization, ETL Processes (Learning)
- Programming Languages:** Python, Go (Golang), JavaScript
- Operating Systems & Infrastructure:** Linux Administration (Mint/Ubuntu), Kernel Parameter Tuning, System Services, Shell Scripting (Basic)
- Network Engineering:** Networking Fundamentals (TCP/IP, Subnetting, Routing & Switching, Network Security/Firewalls)
